Bespoke Media Management take care of all Social Media aspects for One Agency Head Office.

They have created One Agency its very own social media marketing hub to assist new businesses starting out or rebranding. It includes an image suite, along with the ability to order social media marketing campaigns and a wealth of information to help you make the most out of your online profiles.

From time to time, Bespoke Media add a **few free templates** at the base of the home page for use on Socials. There are a number there now for your immediate use. You will require the free version of Canva to open and individually brand them if required. The link to this page is:

<https://www.oneagencyportal.com/>

If you would like to learn more about the portal & pricing, should you wish to have your own **personalised site** & gain access to so much more, please contact Nic Fren on 0434 527 673 for an introductory phone call.

Information on what is included with membership and pricing is in link below:
